

Hello, I am Lionel.

I am looking for a host family for one year.

I will live in Den Haag for one year starting in August 2023 and play with Cartouche.

I am 16 years old, and I am a field hockey goalkeeper from Switzerland. I live in Basel, and I have four siblings. I go to the 10th grade in the school (Fachgymnasium). I play with the Basler Hockey Club (BHC) and in the Swiss National Team, under 18.

I love Sport. But I also like to go out with my friends, or to play soccer with my little brother. I am in the leadership team in the scouts. Once a week, I take care of two small children.

In February I already had a trial training with the under 18 boys' team. It was a very great experience to know this club and all the players and coaches. I felt very comfortable with this people.

Currently I am looking for a suitable school in Den Haag and a family where I could stay.

I come to den Haag, because I want to become better at field hockey and I also want to learn the language. I know the Netherlands from vacations, and I liked it a lot. I am looking forward to the experience of a year abroad.

If you have any questions, (about the circumstances and finances), please feel free to contact me or my mother Ursina.
